

The Power of a Portfolio Classroom

"School is where young people come to watch old people work!" If you are looking for a way to motivate your students to take ownership of their own learning, then this is the course for you. You will be introduced to the power of using a portfolio as an authentic assessment that inspires, motivates, and encourages students to become lifelong learners. The workshop approach, as well as the strategies of using mini-lessons, authentic assessment, conferencing, and reflection to increase student performance will all be explored in this course. Ultimately, teachers from all content areas will learn how to incorporate these effective strategies into their curriculum to help their students to become more invested in their own learning.
