

CEE 539

Communication Disorders

(Formerly called - Integrated Communication Skills)

In today's school setting we are seeing an increasing number of developmentally delayed students in our classrooms. The communication difficulties that our students experience are apparent in the classroom setting where the demands and expectations are great.

With the various academic responsibilities, the best way for teachers to ensure success is to integrate good communication skills in their classroom.

Teachers will receive a variety of materials as well as learn how to implement language activities into their lesson plans. All materials can be adapted for any subject and grade level. Learn how to help your students become more successful in their academic and social learning experiences.

Graduate/Inservice

<i>Instructor:</i>	<i>Doreen Schaefer</i>
<i>Dates:</i>	<i>June 29, 30 July 6, 7, 2009</i>
