

Designing Courseware For Your Classroom

Designing courseware for your classroom is a hands on course that is designed for the moderate to advanced computer user. The purpose of this course is to enhance the students capability to develop computer-based courseware modules in the students discipline. Existing courseware modules will be described to illustrate the structure requirements of such modules. Each student will select topics for courseware development from his or her discipline and will concentrate on module development under the individual guidance of the instructor. Students design and implement the programs in the computer lab. Students must have successfully completed creating a 21st Century Classroom before enrolling in this course.

Inservice

<i>Instructor:</i>	<i>Ben Franquiz</i>
<i>Days:</i>	<i>Monday-Thursday</i>
<i>Dates:</i>	<i>August 3, 4, 5, 6, 2009</i>
